INVISION Payroll

The INVISION Payroll module is a fully functional exception payroll processing system designed to meet the rigorous demands of the local government workplace. Developed to provide the utmost in flexibility, the payroll module handles even the most complicated tasks easily. Integrated with our other INVISION modules, Payroll gives you piece of mind knowing that the entire system is designed to work together.

Flexible Software Begins With INVISION

Table-driven, the payroll module allows you to easily customize unlimited deductions and deduction schedules as well as multi-department gross pay distribution. Payroll handles all state and federal tax calculations as well as state retirement, basic, supplemental and dependent insurances. The system also supports electronic direct deposit, check reconciliation, vacation and sick time accrual, fringe benefit tracking, and much more. In addition, the system has a flexible wage reporting system that tracks calendar, fiscal, and contract wages. The INVISION Payroll module is the most powerful and flexible payroll management system currently available to the government marketplace.

Comprehensive Reporting

The INVISION Payroll system allows for unparalleled reporting capability. This includes all state and federal required reporting as well as retirement reporting. The system also features specialized reporting functions such as School Management Association Reports, Minority and E.E.O. reporting as well as electronic submission of W-2s. Need a report that the system doesn't provide? No problem when you use the INVISION Reports Workstation. Simply point and click on the fields that you want and create your own custom reports. Our complete product line of software, hardware, and services for local government offices allows you to concentrate on better serving your community.
