HELPING
CREDIT UNIONS

HELP THEIR
MEMBERS

Answer Your Member Inquiries

ShareTec's MCIF is the single location for all Member Information.

Looking for balance information? Trying to determine Joint Owner information? ShareTec MCIF gives you everything you need! With a single mouse click, you have access to all information related to the member. ShareTec MCIF gives your Credit Union direct access to:

- UNLIMITED TRANSACTION HISTORY
- MEMBER NOTES
- HOLD INFORMATION
- ACH INFORMATION

And much more...Ordering checks for your members directly from MCIF, Viewing Card Balances or Member Relations based on your own criteria, are only a few of the "single click" tools available. Plus with ShareTec's New Member "Wizard", you can check OFAC and Credit Reports as well as suggest products that fit the member profiles you develop.

Simplify Your System Navigation

ShareTec's "One-Click" navigation makes information easy to access. No more double clicking and drilling down so many times you get lost. Need more information about a co-maker? Has the member draft cleared? A single click puts the information literally at your fingertips!

Unlock Your Information

ShareTec utilizes the Progress™ Relational Database, so data-mining is a breeze. ODBC (Open Database Connectivity) along with popular data-mining software such as Crystal Reports™, Microsoft Access™ or Excel™ give you the answers you need, when you need them. Want more?

ShareTec has teamed up with Sedona Corporation for MRM (Member Relationship Management) Solutions. MRM provides you with a complete view of your members and their households to help you retain profitable members. Set-up and track marketing campaigns and track service requests to ensure ROI – and more!

ShareTec Knows Your Credit Union

ShareTec has installed over 300 Credit Union systems in the last 10 years. Our Credit Union clients are *our Members* and we work closely to deliver the solutions required in today's marketplace. We help you deliver all services that the "big guys" do!
