

# INVISION™ Tax Assessing Billing & Collection

## EASY TO USE

Designed and written using contemporary technology, INVISION provides public sector entities with a comprehensive software tool. INVISION emphasizes ease of use and is designed to make processes quick and efficient.

## FLEXIBLE DEPLOYMENT

INVISION can be deployed in a hosted environment (Cloud), which means the server resides within a secure Northern Data Systems data center. Backups, software updates, hardware upgrades and other system related tasks are performed by NDS staff, so you can experience zero down-time.

## SECURE CONTROL

INVISION Cash Receipts has a complete and secure clerk sign-on capability that controls access as well as transaction types that can be performed. Voided transactions are tracked and reported within the cash up reports.

## Taking Care of Valuation Data

**INVISION Assessing** offers assessing professionals an easy way to maintain and bill complete schedules for land, residential, and commercial assessments. INVISION Assessing also maintains and bills personal property schedules within the community. Value data is automatically received from INVISION Appraisal or from interfaces with many third-party appraisal solutions. With Assessing your assessor can access data manipulation tools such as sales ratio and detailed reporting for instant analysis and comparisons. This information is automatically available to the INVISION Tax Billing and Collection applications.

## Flexible Billing

**INVISION Tax Billing** offers the flexibility to create various bill types and formats. Simplify the process further by opting for NDS to laser-generate and mail your bills or take advantage of the INVISION online bill and payment services. The clear, user-friendly bill formats minimize confusion for property owners, making this cost-effective solution seamless. Additionally, INVISION enhances efficiency by enabling direct payment exports and imports from mortgage companies into the system.

# Tax Assessing, Billing & Collections Features

## AWARD WINNING SUPPORT

INVISION is backed by a team of professionals who understand how local government and utilities operate. They have real world experience in operating the software and answer questions in a quick and efficient manner.

## FLEXIBLE DESIGN

With INVISION you can add different software apps as your needs change or grow. Payroll, Payables, Purchasing, Human Resource, Tax Billing & Cash Receipts are just a few of the available INVISION apps.

## TURNKEY SOLUTIONS

Eliminate your technology gaps with Northern Data Systems as your single-source IT partner. We offer a comprehensive portfolio of integrated, turnkey products and services, all from one trusted vendor. Our goal is simple, to give you powerful tools that work together so you can focus on serving your community, not managing your technology.

## Secure Control with INVISION Cash Receipts

Northern Data Systems' **INVISION Cash Receipts** provides comprehensive control over the cash receipts process through a secure system of checks and balances that ensures system integrity. Clerks must use secure access to enter the system, which meticulously records every transaction detail to maintain full oversight of cash flow. The software features flexible, user-defined transaction codes that enable automated descriptions and account distribution, streamlining the cash entry process for speed and efficiency. INVISION Cash Receipts is compatible with OCR, handheld barcode scanners, printers, and check validators. It updates batch and transaction totals in real-time and supports next-day batching, allowing users to reconcile today's transactions efficiently. Additionally, Cash Receipts includes a robust calendar view that displays daily cash transactions, with drill-down functionality to trace specific transactions or cash amounts.

Other available INVISION apps include General Ledger, Payroll, Accounts Payable, Purchasing, Tax Assessing and Billing, Appraisal, Cash Central Receipts, Human Resources, Fixed Assets, Motor Vehicle Registration, Permits and Code Enforcement, Licensing and much more.
