INVISION™ Motor Vehicle Registration

AUDIT CONTROL

The INVISION Motor Vehicle Registration system removes the guesswork of auditing and cash reconciliation. Controlling registration inventories, calculating and tracking change that is due and tying out daily cash are just a few of the ways that our audit capabilities prevent the number one fear of every town or city…FRAUD and THEFT!

MAINE STATE COMPLIANT

The Motor Vehicle Registration module is fully compliant with all state reporting and filing requirements. The system is also designed to pass all necessary information and reporting to the state electronically.

EASY TO LEARN

The Motor Vehicle Registration module utilizes a wizard system that guides users through the process, which makes the system easy to learn.

- INVISION Motor Vehicle is designed to meet or exceed State of Maine Bureau of Motor Vehicle standards.

- Wizard based user interface makes Motor Vehicle easy for staff to use and makes even complex registration transactions simple.

- Registration screens are designed to look like actual registration forms so they are easy to follow and record information.

- Strong cash reconciliation controls and other strong audit functions make the Motor Vehicle system safe and secure to use.

Technology for Local Government

For many cities and towns, the process of registering a motor vehicle is among the most complex and time consuming tasks that is performed on a daily basis. In addition to daunting state reporting requirements, there are significant amounts of cash that need to be accounted for and, more importantly, controlled. The INVISION Motor Vehicle Registration module is engineered to handle these transactions quickly and efficiently and to give you control where you need it most, at the point of registration. Motor Vehicle's graphical intuitive design simulates a registration form right on the screen and guides the user through all phases of entering registration information.

Designed and written using contemporary technology, INVISION provides public sector entities with a comprehensive software tool. INVISION emphasizes "ease of use" and is designed to help your staff serve your customers quickly and efficiently. Architected and built directly by Northern Data Systems, INVISION is a highly integrated yet modular system. Whether you simply choose to do Motor Vehicle now and add other INVISION modules later, you have the confidence that the entire system is designed to work together.
