

INVISION Tax Assessing, Billing & Collection

EASY TO USE

Designed and written using contemporary technology, INVISION provides public sector entities with a comprehensive software tool. INVISION emphasizes ease of use and is designed to make processes quick and efficient.

SERVING COMMUNITIES

For more than forty years, local governments have relied upon INVISION for their integrated tax collection system. The INVISION architecture provides a state-of-the-art system that allowing communities to handle their tax needs and better serve their residents.

SECURE CONTROL

INVISION Cash Receipts has a complete and secure clerk sign-on capability that controls access as well as transaction types that can be performed. Voided transactions are tracked and reported within the cash up reports.

Taking Care of Valuation Data

INVISION Assessing allows assessing professionals to maintain and bill complete schedules for land, residential, and commercial assessments. INVISION Assessing also maintains and bills personal property schedules to organizations within the community. Value data is automatically received from INVISION Appraisal or from interfaces with many third-party appraisal solutions. With Assessing your assessor can access data manipulation tools such as sales ratio and detailed reporting for instant analysis and comparisons. This information is automatically available to the INVISION Tax Billing and Collection modules.

Flexible Billing

INVISION Tax Billing can generate a variety of bill types and formats. Further enhance ease of use by choosing to have NDS laser-generate and mail your bills or, you can choose to use the INVISION online bill presentment and payment services. Easy-to-read bill formats reduce confusion from property owners and makes this cost-effective process hassle free. And, INVISION can streamline your processes with its ability to export and import payments from mortgage companies directly into INVISION.

Serving Those Who Serve the Community

INVISION Tax Assessing, Billing & Collection

SOFTWARE SUPPORT

INVISION is backed by a team of professionals who understand how municipal government and utilities operate. They have real world experience in operating the software and answer questions in a quick and efficient manner.

CLOUD BASED

INVISION can be deployed in a hosted environment (Cloud) which means the server resides within a secure Northern Data Systems data center. Backups, software updates, hardware upgrades and other system related tasks are performed by NDS staff which maximizes system availability.

TURNKEY SOLUTIONS

At NDS, our objective is to be your single-source provider of information technology. We pride ourselves on our breadth of turnkey products and services that are focused on giving our customers powerful tools that work together, all from a single vendor.

Secure Control

The Cash Receipts module provides complete control over the cash receipts environment by using a secure set of checks and balances to monitor the integrity of the system. Clerks are required to use security to access the system and the system records all details of every transaction so that complete control is maintained over where the cash is going. Flexible user-defined transaction codes allow for automated descriptions and account distribution, which makes entering cash easy and fast. Cash Receipts supports OCR, handheld bar code scanners, printers, and check validators. The system maintains batch and transaction totals real-time and has the ability to support a next day batch so cash up can be performed on the transactions that were processed today. The module features a powerful calendar view of all cash transactions received by day. Drill-down support within the calendar view allows the user to trace down a specific transaction or cash amount.

Available INVISION modules include Payroll, Fund Accounting with Budgeting, General Ledger, Accounts Payable, Purchase Orders, Appraisal, Human Resources, Fixed Assets, Motor Vehicle Registration, Licensing and much more.
